Introduction

What is this?

This is one of, if not the easiest way, that any person can make an income from the internet without website knowledge, without buying or selling in just minutes a day.

Chapter 1
How does it work?

You can get a website ready made for you free of charge on the internet. Then by just clicking a button you can type about something you're interested in. The income is made when someone goes from your site to another and buys something.

This is possible because others want to sell their products. There are literally millions of people who pay handsomely for others to get them sales.

Don't worry you won't be doing any selling. Their own site will do that.

Shortly I'll clearly explain the easy, simple and highly effective way you get someone to go to these sites.

These other sites want people to attract buyers to their sites. They do this by running what is called affiliate programs.

How it works is that people like you and me go to their site and join their affiliate program for free. It's easy!

Then you get a special unique web address for their site. You put this as a link on your site.

Each time someone clicks this link they will be sent to their site. Because it's a special address the site knows the person has come from your site. So when they buy what they're selling

you get commission. This can be anything from 10% - 80%. Most sites offer 40% - 60%.

You'll be adding to your site regularly. As it only takes minutes there's no reason why you can't do it daily. As your site gets larger with more links the more income potential there'll be. It'll just get bigger and bigger every day.

So in this guide first we'll talk about what you need to write about to make it profitable and enjoyable.

Next, I'll be showing you how to get your own site for free.

Then, I'll show you how to easily find and join affiliate programs.

Next, very importantly, how you write and need to word it so people will want to go to these other sites and buy. Thereby making you money.

Finally, I'll be showing you the way that's clearly been shown as the winner for getting people to go to your site. It's free, like everything else you'll be doing.

Does it work?
You won't be the only person doing this. There are crowds of others already making their living with this strategy. Don't worry there's plenty for everyone.

There are people who have done it for a year or so and earning incredible figures. It just continues to grow the longer you do it.
